

Guidelines

1. Considering the use of the plugin, it is recommended that you install the Google Chrome browser.
2. Make sure you have a TRX wallet, here we take TronLink wallet as an example. If you need to create a new TronLink wallet:
 - a. For more information on how to create TronLink wallet, click here <https://chrome.google.com/webstore/detail/tronlink/ibnejdfjmmkpcnlpebklmnkoeoihofec> Installation steps: Add to Chrome → Add an extension → Successful installation → Close the pop-up window.
 - b. You can also view the TronLink website to download the TronLink wallet application: www.tronlink.org. Once you have downloaded it, you will be able to access your wallet.
 - c. Click "Create Account" to set the account and password. Please note: TronLink is a decentralized wallet, do remember or take note of your password. If you forget your password, TronLink cannot help the user to retrieve it. Enter a wallet account name of no less than 4 characters and set the password as required.

The screenshot shows the TronLink wallet creation interface. At the top right, there is a language selector set to "English". The TronLink logo is centered. Below the logo are two input fields: "Password" and "Repeat password". A blue "Continue" button is positioned below these fields. A note below the button states: "Remember the password, you can't retrieve it if you forget it." At the bottom, there is a dark grey box containing the text: "By using TronLink, you agree to the use of cookies. [Click to learn more.](#)" and a "Got it" button.

- d. Follow the prompts to write down the mnemonic, then enter the mnemonic to access your wallet. Please remember: handwritten mnemonics, and keep mnemonics safe and secure.
- e. Once your account is set up, the page will display your balance and optional actions. The 33-character account is also your transaction address. If you want to trade TRX on a crypto-exchange, copy the string to the Payment Address field. Click Export to keep your private key of the account, do write it down and keep it secure.

<

Create Account

Please copy down the mnemonic for your new account below. You will have to confirm the mnemonic on the next screen

police	slight	rail
cake	faculty	mail
skull	true	crawl
cabin	play	subway

Continue

<

Confirm mnemonic phrase

You must now confirm your mnemonic phrase. Select the words below in the correct order to finalise your account creation

about	scheme	pudding
diesel	eye	federal
frog	liquid	useless
surround	toe	runway

diesel

federal

pudding

liquid

frog

scheme

about

toe

surround

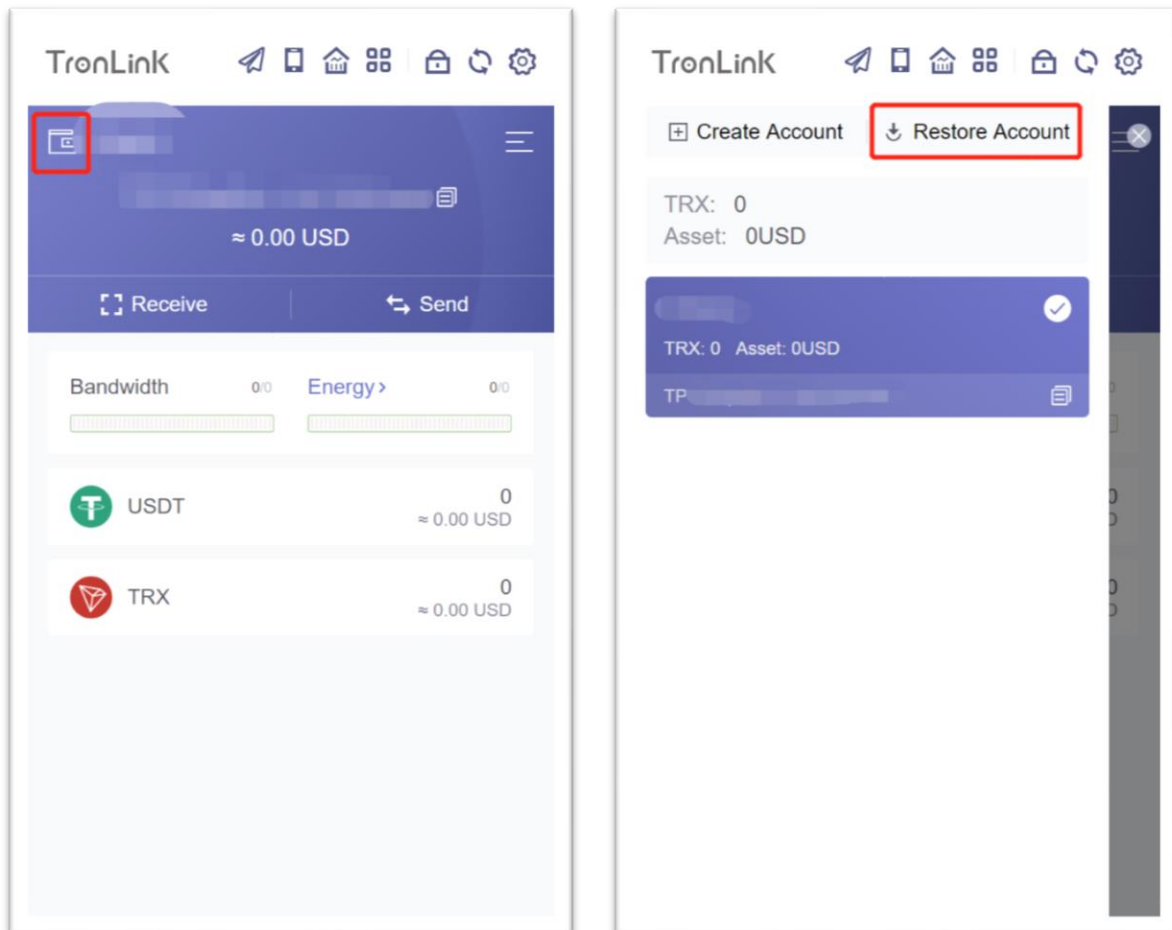

runway

eye

useless

Confirm

3. If you already have a TronLink wallet, you can choose to Restore Account that you created earlier.
 - a. On the TronLink landing page, click the wallet icon on top of left corner.
 - b. Click Restore Account, enter your TronLink account name. Click Continue, choose to import by mnemonic phrase or private key. If you import through the mnemonic, just separate the words with spaces.

- c. Continue, select the accounts you would like to import, your wallet will be successfully imported.

4. To play the game, you must have some TRX as the cryptocurrency to initiate the TRON network.
5. Take the Dice game as an example:
 - a. Play Dice and be sure to place a bet. This is the number of TRXs you want to bet.
 - b. - You can adjust the slider or enter the prediction number to scroll.
 - c. - When you move the slider, your spending and winning chances will be automatically arranged.
 - d. - You can also choose to scroll down or roll up as a forecast number.
 - e. - Press to scroll the bet. Smart contracts will randomly generate lucky numbers between 0 and 99.
 - f. - If the lucky number is less than your forecast, you win.
