

A Complete Guideline-How to play DApps on OCDapp Platform on your computer?

1 Create a Tron wallet and get some TRX:

- Go to the website: <https://tronscan.org/#/>
drop down to the bottom of the page and click 'Create New Wallet' under the menu 'Quick Links';
- Enter your password;
- Download the private key and keep it in a safe place. (The private key should not be given to anyone.)
- Back to the account interface, you can see your Tron wallet address there;
- Buy or deposit some TRX in your wallet.

2 Please open the official website of OCDapp Platform by using Google Chrome;

<https://www.ocdapp.pro/>

3 Prepare a TronPay / Guild Wallet / TronLink Wallet and install it on your Google Chrome. The wallet plugin for Chrome can be downloaded at the link below.

4 Set a password for your wallet and input it twice. Import your private key to TronPay / Guild Wallet / TronLink Wallet.

5 Freeze some TRX for energy and bandwidth; it is an important step to avoid TRX losses. When your energy and bandwidth are run out, the Tron Network will consume your TRX in your wallet. Click your account; you can see your remaining energy and bandwidth. (When it shows you are not log in, please refresh the page.)

Energy is consumed when interacting with dapps utilizing smart contracts. When you freeze TRX, this allows you to avoid high transaction fees. Note that frozen TRX will remain frozen for a minimum of 3 days before you can unfreeze it.

Freeze:

Input TRX amount

Unfrozen TRX: 91.703715

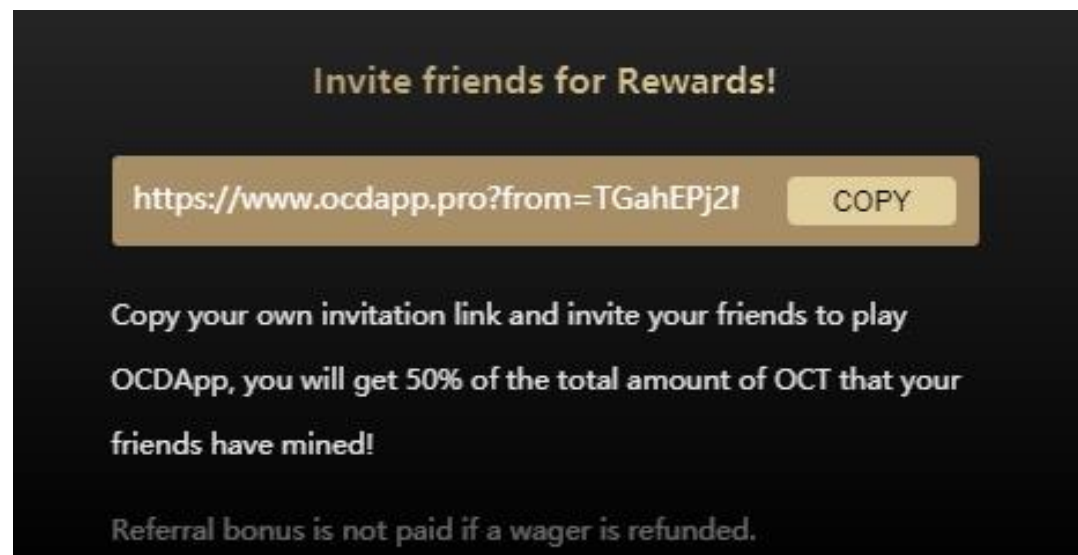

6 Set your BET AMOUNT. This is the amount of TRX you will be betting.

You can adjust the slider number you'd like to roll under. As you move the slider, your payout and win chance will adjust automatically.

Click ROLL to place your bet. The smart contracts will then randomly generate a LUCKY number from 0-100.

If the lucky number is below your prediction, then you WIN!

7 You can also click the invitation at the top of the page to generate an invitation link and send the invitation link to others. If the user plays the game through this link and it is the first bet on OCDapp Platform, your OCT income will increase, and the top five of the invited transaction amount can also get TRX rewards. The reward for the first place in the rankings has a bonus over **15,000 TRX**.

The screenshot shows a dark-themed interface with a gold-colored header that reads "Invite friends for Rewards!". Below this, there is a gold-colored box containing the URL "https://www.o.cdapp.pro?from=TGahEPj2I" and a "COPY" button. Underneath the box, the text says "Copy your own invitation link and invite your friends to play OCDApp, you will get 50% of the total amount of OCT that your friends have mined!". At the bottom, in a smaller font, it states "Referral bonus is not paid if a wager is refunded."
